

Re: Councilwoman Gertrude Yates' letter advising Merchantville to bite the bullet (C-P 3/3).

She and the mayor are condoning a water problem that exists in my neighborhood. My home is not fit to live in and the flooding is so severe residents are really putting up with a lot.

She has been contacted about this matter many times. Water is being pumped night and day, rain or shine from the middle of Innis Avenue in back of Glenwood Avenue.

It runs all over Holly Avenue and across the intersection at Glenwood, where it constantly remains.

Mrs. Yates should now show this senior citizen that she cares.

GRACE M. GREEN

Merchantville
