

ditional light was authorized.

The excessive rains of the past summer have shown the need of a storm sewer to drain the temporary lake that forms at Holly and Glenwood avenues. Council authorized that \$1,250 be spent for this purpose. Work of laying a sewer main for Glenwood avenue will be started in a few days and the employment of a ditch digger at the cost of \$20 a day was authorized.

The zoning committee reported that a report on proposing a new zoning ordinance will be ready at an early date.

Members of the board of education, with Arnold H. Moses, architect, attended the meeting and exhibited plans for the proposed new high school.
