

Merchantville Hit

In Merchantville, police received reports that the 200 block of Glenwood avenue was flooded and that pedestrians and cars could not get through.

In Gloucester, the downpour was so heavy that traffic on Broadway from Powell street to Ridgway was halted for about 20 minutes around 11.45 a. m.

As the rain eased, the storm water drained off and by noon traffic was normal. At one time, the water stood more than a foot deep at the intersection, police said.
